SMOKING POSITION

CLEANING POSITION

This pipe REALLY offers you cool smoking pleasure. Its patented device (see diagrams) works like a charm. You don't even take the stem out of the shank.

We used a high quality imported briar. We had the bit fitted with a special cooling tube that prevents moisture from reaching your mouth or the bowl.

Bowl has carburetor bottom. Attached to the stem is an aluminum tube with vent on top. (as illustrated above). It maintains this position while you smoke. To clean the pipe, give the stem a half-turn. This aligns the vent of the tube with the opening at the bottom of the bowl (cleaning position). Place a sheet of paper underneath the bowl, and blow through the bit. All the juices and impurities which have been trapped in the tube are forced out. Your pipe is now clean, sweet and dry—ready for another pleasing smoke.

Westminster's Featherweight

FORMERLY CALLED "DUBLIN FEATHERWEIGHT"

NOW AVAILABLE IN A VARIETY
OF SHAPES

This has been our fastest selling pipe for the past 2 years, up to now available only in the Dublin shape. Now . . . in response to your demands . . . we offer your favorite pipe in 2 handsome finishes and in a variety of shapes.

If you smoke all the time . . . if you keep a pipe in your mouth constantly . . . this is THE pipe for you. It's so light — only $\frac{3}{4}$ of an ounce — and so carefully balanced — that it rests as easy as a cigarette in your mouth.

"AS LIGHT AS
A FEATHER"

The briar is a specially imported high quality lightweight grade noted for its durability. The long tapering shank and the hard Para rubber bit equipped with a filter assures you a cool refreshing smoke. We honestly believe this Featherweight a \$1.50 value.

Smooth Finish available in shapes No. 64 (ill.) and Nos. 19, 39, 48, 56, 86
Rustic (shell) available in shapes No. 64 (ill.) only

ROPP'S Goose Quill

CHERRYWOOD PIPE

Cherrywood gives you the sweetest smoke in the world. And ROPP'S are recognized as the makers of the finest Cherrywood Pipes . . . guaranteed 100% smoke satisfying.

ROPP'S Goose Quill* Cherrywood is a definite departure in pipes. Dressy . . . extremely light in weight yet strong enough to last a long time. Bit is a screw-on type of finest para rubber.

The name Goose Quill is still retained, although actual goose quill is no longer used because of its tendency to split. The substitute (an expensive plastic) has all the good qualities of Goose Quill, but will not split. The Duke of Windsor owns several of these Ropp Goose Quill Cherrywoods, and smokes one continually wherever he goes.

Pebble Grain MEERSCHAUM

Only the king of pipes can give you a great luxury smoke. The king? Meerschaum, of course! Here is a pipe that is appetizing to the eye as well as to the taste.

It gives you a cool dry smoke that is unexcelled for richness and sweetness. It grows more satisfying with every pipeful. And as you smoke, its pure milky-whiteness gradually mellows to a rich russet-brown.

Entirely hand crafted from genuine "block" meerschaum. Pebbled by hand carving, it is not easily marked by fingers, dirt, etc. And they're cool to hold. 100% amber stem precision threaded to the shank.

This is a great pipe event.
Be sure to list your 2nd and 3rd choice shapes.

This superb pipe is indeed a symbol of gallantry. Rich in knightly tradition, its sweet smoking quality is in keeping with its splendid background.

The briar was imported from St. Claude, France, for centuries the home of pipe connoisseurs. Each pipe is a masterly creation. Waxed virgin finish accentuates its elegant graining. The edge of the bowl is beveled... an "expensive pipe" feature. This lightweight smoker spells C-O-O-L-N-E-S-S. Individually packed in charbonette bag.

We have 16 stock shapes No. 86 (ill.) 19, 27, 28, 39, 43. But they're moving fast so please indicate your 2nd and 3rd choice shapes.

Jamaica Rum is one of the reasons for the distinctive and pleasant taste of this perfect pipe tobacco. Rum has been used for years in pipe mixtures, but we find that the particular brand we use imparts a flavor and "tang" of just the right degree to blend most harmoniously with the tobacco and Maple Sugar in this mixture.

"M-m-m, what a lovely aroma, John, what are you smoking?"

The above scene is taking place all over the United States today, because this Original Rum & Maple Blend No. 53, now the nation's fastest selling tobacco in its price class, is one of the very few tobaccos that will cause men and women alike to remark about its pleasant aroma.

Buy a supply today and don't forget that you can obtain it at your local tobacconist at the same prices you buy directly from us:-

BEWARE OF INFERIOR IMITATIONS & SUBSTITUTES

In order to protect purchasers of Rum & Maple slight changes have been made in the label which will henceforth contain the word "Original" and also the name of the wholesale distributing organization, the Rum & Maple Tobacco Corp.

Only the Original box "Blend No. 53" on the package

Every year barrels and barrels of the finest quality maple sugar are shipped to our factory in Louisville direct from Vermont. This pure Vermont maple sugar is used in our Blend No. 53 because we feel sure that no synthetic flavor can take its place.

Smoke this tobacco and you'll see what we mean!

Our tobacco buyers are told: "Remember, we have made a reputation with Rum and Maple, and we must maintain it at all cost." When this blend was first introduced we used nothing but the finest tobaccos and we pledge ourselves to continue that quality forevermore. The tobaccos are easily identified—the greater proportion by far (after the English manner) is Virginia, distinguished by its light color. The darker tobacco is North Carolina, and the Black is, of course, the genuine imported Syrian Latakia, of which we have a sufficient quantity on hand for many years to come—time does not deteriorate this tobacco.

Aside from the special curing processes the tobaccos are subjected to, and the manner in which the Maple Sugar is prepared, one of the most important factors in attaining the result so evident in the Rum and Maple Blend No. 53 is the process developed to infuse into the very cells of the tobacco the Jamaica Rum and Vermont Maple Sugar. This process is a jealously guarded secret known only to a handful of trusted employees. It is this impregnation of flavor that makes the taste and aroma of Blend No. 53 absolutely permanent.

BOWL CURED WITH JAMAICA RUM AND MAPLE SUGAR

Do you want a sweet, thrill-packed smoke? Do you want your favorite tobacco to taste better, more fragrant? Then you'll want this remarkable pipe... a popular House of Westminster special. The bowl is impregnated with highest grade Jamaica Rum and natural Vermont Maple Sugar. Your palate will thrill to the zest and sweetness of this grand pipe.

You'll praise this outstanding achievement in pipe smoking pleasure.

IN all English literature, no character is quite so quaint as the beloved Mr. Pickwick. A jolly, rotund fellow, he spread his witticisms and subtle philosophy wherever he went. Here is just the pipe you would have expected him to smoke! It seems to reflect his genial friendliness.

Made in England . . . By Sasiemi

DUE to the war, and the uncertainty of replacements on shapes and sizes, Sasiemi's U. S. representative has turned over to us his entire stock on hand, with permission to sell them out at the low price quoted here. No pipe bearing the name Sasiemi ever before sold in this country for less than \$2.50!

THE Mr. Pickwick pipe is an example of perfect workmanship. The fine briar possesses a rich deep Brandy color. Due to lack of space, we can't illustrate all the shapes available. We can supply you, however, with practically any shape you desire. Let us know whether you want a large egg, small egg, fishtail bit, bent stem, etc. We have an enormous stock on hand, today, but they're selling so fast we suggest you list your choice of 2nd and 3rd shapes.
